

We are horrified by Sinclair, by it's forcing it's t.v. and radio stations to air unfounded facts and outright lies about anyone. A media outlet has the responsibility to tell the truth about all issues and not pick slanted ones to back one political person over another. Ads are one thing, but using it's approved airwaves to degrade another person for personal gain is anti american. Please don't approve the license. Media should be neutral, not use public airwaves to hurt another person.
